

HELLO HANOVER STREET!

Top tips for existing plants

- Yellow leaves - sign of a lack of nutrients or water. Top up with compost or water (use cooled water from cooking vegetables for added nutrition!)
- White fly - spray with soapy water
- Black fly - plant Nasturtiums
- Slugs - beer can traps or egg shells might help...

HERE'S SOME SEEDS FROM ME TO YOU!

Use these to freshen up your planters or promote pollinators in your back garden!

Simply scatter the seeds, crumble some compost on top and be sure to give them a water

Fun alternatives for your planter

- Fill with glass jars and tea lights to brighten up the darker days
- Turn it sideways, fill with books and start a street book swap initiative

Opportunities to grow

Get planting, upskilling or connecting in Bristol

Regular events-

- Food Cycle Lunch Club, every Saturday 2:30-4:30 @ Barton Hill Settlement
- St George Repair Cafe next event 12th July @ St George Community Centre
- Strawberry Lane Community Garden, volunteer sessions on Tuesday & Thursday and the last Saturday each month from 11am -1pm

See individual Facebook pages for more details and updates on all of the above.

Thanks you to all the residents of Hanover Street who made this possible. We hope your seeds and ideas will bloom
